

NF 600 DIAPHRAGM LIQUID PUMP

ADVANTAGES

Series model

Pump head

Diaphragm

Valves

Material options

Suction height (mWg) Pressure head (mWg)

POSSIBLE AREAS OF USE

PERFORMANCE DATA NF 600 DCB NF 600 DC KP KT П PVDF PΡ PΡ PTFE PTFE PTFE EPDM FFKM FFKM Flow rate at atm. pressure (I/min) 6 5.5 10 Permissible ambient air (°C) +5 to +40

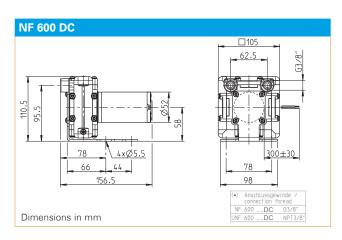

Permissible liquid temperature (°C) +5 to +80 Weight (kg) 1.5 IP protection factor 50 54 **ELECTRICAL DATA** Operating voltage (V) 24 Power consumption (W) 34 44 I load max. (A) 1.4 1.8

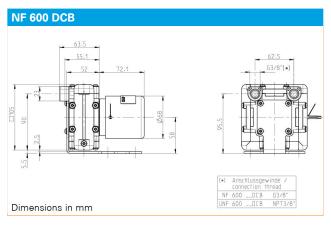

NF 600 DC

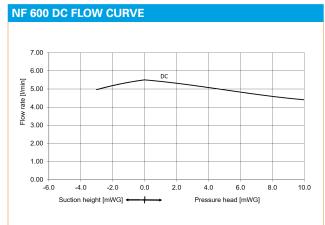

PERFORMANCE DATA				
Series model	Flow rate at atm. pressure (I/min)	Max. suction height (mWg)	Max. pressure head (mWg)	
NF 600 DC	5.5	3	10	

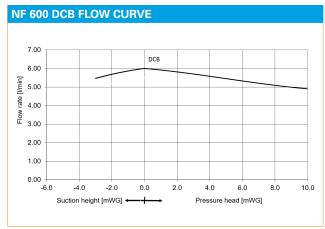

NF 600 DCB

PERFORMANCE DATA				
Series model	Flow rate at atm. pressure (I/min)	Max. suction height (mWg)	Max. pressure head (mWg)	
NF 600 DCB	6	3	10	

OPTIONS				
Description	Illustration	Details		
Motors		Various voltage options, higher and lower service life		
Electrical connections		Molex, AMP etc.		
Hydraulic connections		G / NPT internal thread		

ACCESSORIES				
Description	Illustration	Details		
Pressure control valve		The pressure control valve can be used for a more accurate control of flow against a fluctuating back pressure, metering into a vacuum and from a pressurised system.		
Pulsation damper		This very versatile pulsation damper reduces the vibration in hoses and pipes and it helps to remove pulsation which is preventing the system from functioning correctly.		

The performance values for the series models shown on this data sheet were determined under test conditions. The actual performance values may differ and depend in particular on the usage conditions and therefore on the specific application, on the parameters of the components involved in the user's system and on any technical modifications carried out which deviate from the standard configuration or the as delivered condition.

If individual designs have been created for specific customers on the basis of series models, other technical performance data may apply.

Before operation begins, the relevant operating instructions and/or assembly or installation instructions should be read and the safety information contained in these instructions should be noted.

KNF reserves the right to make changes to the product and the associated documentation without prior notice to the customer.
